

Schedule - To accompany form 990-EZ, Part I, Line 10

The Opera House Players base of operations is a historic structure built in 1903. Part of the charter for the group is to bring the experience of theater to the area. We felt there could be no better expenditure of funds than to strongly support the current renovation of this historic structure where we are given rent free access to perform our shows. This year the group donated \$30,023 for this project. More funds are being collected. The remainder of the earmarked funds will be donated as required as the project progresses.
